Art Unit: 1624

Applicant's amendments and remarks filed 7/29/05 have been received and reviewed.

Claims 12-25 are now pending in this application.

Claim Rejections - 35 USC § 112

Claims 13 and 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- i) The term "derivative" in claim 13 renders the claim indefinite because the metes and bounds of a derivative cannot be ascertained. Deletion of the term "derivative" is suggested because the structural formula along with the definition of the variables fully defines the compound claimed.
- ii) The phrase "fused bicyclic pyridine derivative" renders claim 16 indefinite because the metes and bounds of a derivative cannot be ascertained. Language, such as "compound of formula (1a)" is suggested in place of the phrase "fused bicyclic pyridine derivative."

Claims 17-25 are objected to under 37 CFR 1.75 as being substantial duplicates of each other. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k). These claims are duplicates as they each depend on claim 12 and are drawn to a composition comprising an effective amount of a compound according to claim 12. Different intended uses are given no material weight in such claims. Should Applicants intention be a pharmaceutical composition, then, presenting a claim such as "A pharmaceutical composition

Art Unit: 1624

comprising an effective amount of a compound of formula (I) according to claim 12 and a pharmaceutically acceptable carrier” is suggested.

Claim 12 is allowed.

Claims 14 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
